

Undergraduate / Graduate Student Competition

The technical committee and the student affairs committee of the Canadian Society for Civil Engineering (CSCE) invite graduate and undergraduate students to take part in the yearly CSCE Annual Conference.

The student competition offers an opportunity to present research activities. A short executive summary, not exceeding 5 pages (for graduate students) or 3 pages (for undergraduate students) including figures/ diagrams must be submitted in pdf format by e-mail. Complete details will soon be made available on the Annual Conference website: <http://www.csce.ca/2009/annual/>

Submissions must use Times New Roman 12 font with single spacing. Students will be short-listed based on the quality of the executive summary. The top ten students for each of the undergraduate and graduate competitions will be notified and invited to present their oral presentation as part of the competition at the CSCE Annual Conference. The students who are not short-listed will still have the opportunity to present their research work at the conference.

Please visit the Annual Conference website for complete details.
